

THRONE OIL 20W-50

Description:

It is a high performance heavy duty diesel engine oil used all year round for all modern and old engines working under different working conditions.

Usage Areas:

It can be safely used in diesel engines working under heavy conditions and in all climatic conditions, generators and work machines, buses, vans, minibuses and passenger cars.

Benefits and Advantages Provided:

- Thanks to the properties of the additives in it, it prevents residue and deposit formation and keeps the motor clean.
- By means of its high viscosity index it provides excellent protection during all four seasons.
- Thanks to the special additive combinations it contains, it provides effective protection against wear, corrosion and foam formation.
- It reduces maintenance costs and oil consumption to minimum in older engines.

Performance: It compensates the performance specifications API CI-4/SL; VW 501.00/505; MIL-L-2104 D; ACEA E2/E4, MB 228.3; MAN 3275.

Typical Properties:

Physical Property	Method	20W-50
Density, g/cm ³ , 15°C	ASTM D 4052	0,895
Kin. Viscosity, cSt, 40°C	ASTM D 445	176
Kin. Viscosity, cSt, 100°C	ASTM D 445	19,5
Viscosity Index, min	ASTM D 2270	127
Pour Point, °C	ASTM D 97	-27
Flash Point, °C	ASTM D 92	228

* The values given in the table are typical and they may vary from production to production.
