

THRONE OIL FULL SYNTHETIC 5W-30

Full Synthetic Engine Oil

Description:

It is a synthetic motor oil that is produced as a result of formulating the superior quality synthetic base oils with unique new generation additives.

Usage Areas:

It is suitable for high-speed petrol engines at all operating temperatures for four seasons.

Benefits and Advantages Provided:

- By means of its wide viscosity range, the engine provides excellent lubrication over all four seasons.
- Oxidation resistance is excellent. Reduces roughing, extends oil life and keeps engine cleaner.
- Helps to keep the engine clean by reducing sediment formation, thus preventing pressure loss and extending engine life.
- Oil consumption is excellent as it gives low evaporation. It provides superior protection and longer service life in catalytic converters.

Performance: It compensates the performance specifications API SN/CF; ACEA A5/B5/A1/B1-08; FORD WSS-M2C913-A/ FORD WSS-M2C913-B; MB 229,5; VW 502.00/505.00.

Typical Properties:

Physical Property	Method	5W-30
Density, g/cm ³ , 15°C	ASTM D 4052	0,855
Kin. Viscosity, cSt, 40°C	ASTM D 445	57,3
Kin. Viscosity, cSt, 100°C	ASTM D 445	10,2
Viscosity Index	ASTM D 2270	167
Pour Point, °C	ASTM D 97	-39
Flash Point, °C	ASTM D 92	228

** The values given in the table are typical and they may vary from production to production.*
